

Tokyo Foreign Exchange Market Committee

July 25, 2016

Results of Turnover Survey of Tokyo Foreign Exchange Market

The Tokyo Foreign Exchange Market Committee (TFEMC) today released the results of its Turnover Survey of Tokyo Foreign Exchange Market covering transactions in April 2016 (see attached tables).

The TFEMC conducts the survey in order to provide market participants with developments in the Tokyo foreign exchange (FX) market in an accurate and timely manner, thereby contributing to the sound growth of the market. In conducting the survey, the Financial Markets Department of the Bank of Japan provides technical assistance in collecting and processing the data of respective respondents.

Turnover in April 2016 increased from the previous survey which covered transactions in October 2015. Turnover increased in all trading instruments.

From this round of the survey, the TFEMC started to publish the turnover of currency swaps (see tables 1-5, 7 and annex tables 1-2).

Tokyo Foreign Exchange Market Committee

<Notes>

The TFEMC actively conducts the turnover survey on the FX and OTC derivatives market. The survey was conducted annually until 2011, covering FX transactions in April. From 2012, the survey has been conducted semiannually—in April and October—in order to grasp market developments in a more timely manner. This is the 15th survey since its inception in 2006.

Similar surveys are conducted and released by overseas FX market committees in London, New York, Singapore, Sydney, and Canada.

1. Turnover in nominal or notional principal amounts during April 2016.

2. Reporting dealers refer to financial institutions which are the respondents to this survey.

3. Other interbank dealers refer to interbank dealers other than reporting dealers.

4. Other financial customers refer to financial institutions other than reporting dealers and other interbank dealers (central counterparties, regional banks, regional banks II, shinkin banks, credit cooperatives, labor banks and the Rokinen Bank, agricultural cooperatives, credit federations of agricultural cooperatives, fishery cooperatives, prefectural credit federations of fishery cooperatives, mutual funds, pension funds, hedge funds, MMFs, lease companies, insurance companies, finance companies, postal savings, government financial institutions such as the Japan Finance Corporation and the Development Bank of Japan, and central banks).

5. Transactions with retail margin broker firms are included in "with non-financial customers."

6. Geographical distinction between "local" and "cross-border" is based on the location of the sales desk of a counterparty. Any transactions with overseas branches or subsidiaries are included in "cross-border."

7. Spot: Single outright transaction involving the exchange of two currencies at a rate agreed on the date of the contract for value or delivery within two business days. A leg of FX swap transactions is excluded.

FX Swap: Spot/forward and forward/forward swaps. Only the forward leg should be reported, and the spot leg should not be reported at all. O/N, T/N transactions should also be included.

Currency Swap: Contract which commits two counterparties to exchange streams of interest payments in different currencies for an agreed period of time and to exchange principal amounts in different currencies at a pre-agreed exchange rate at maturity.

Forwards: Transaction involving the exchange of two currencies at a rate agreed on the date of the contract for value or delivery at some time in the future (more than two business days later). Foreign exchange agreement transactions and NDFs are included.

FX Option: Option contract that gives the right to buy or sell a currency with another currency at a specified exchange rate during a specified period.

8. Non-dollar amounts should be converted into USD using exchange rates prevailing on the transaction date. If this is impractical or impossible, data may be reported using average or end-of-period exchange rates.

9. In millions of USD. Data should be rounded to the nearest million USD.

10. Electronic trading refers to transactions through electronic broking or electronic trading systems.

11. Estimates are used for some reporting financial institutions.
