Results of Turnover Survey of Tokyo Foreign Exchange Market

The Tokyo Foreign Exchange Market Committee (TFEMC) today released the results of its Turnover Survey of Tokyo Foreign Exchange Market covering transactions in April 2019 (see attached tables).

The TFEMC conducts the survey in order to provide market participants with developments in the Tokyo foreign exchange (FX) market in an appropriate and timely manner, thereby contributing to the sound growth of the market. In conducting the survey, the Financial Markets Department of the Bank of Japan provides technical assistance in collecting and processing the data of respective respondents.

Turnover in April 2019 remained almost flat compared with the previous survey which covered transactions in October 2018. By trading instrument, turnover increased in forward transactions and decreased in spot transactions.

<Notes>

The TFEMC actively conducts the turnover survey on the FX and OTC derivatives markets. The survey was conducted annually until 2011, covering FX transactions in April. From 2012, the survey has been conducted semiannually—in April and October—in order to grasp market developments in a more timely manner. This is the 21st survey since its inception in 2006.

Similar surveys are conducted and released by overseas FX market committees in London, New York, Singapore, Hong Kong, Sydney, and Canada.
